

COMP7507: Rubrics for Final Work & Report

	Sophisticated	Competent		Not yet Competent	
	5	4	3	2	1
Project Title and Objectives	- Objectives of the project are very clearly developed and stated. - Title is highly relevant to the objectives.	- Objectives of the project are clear even though there remains a few issues that need further clarifications. - Title is relevant to the objectives.		- Objectives of the project are mostly unclear and substantial clarifications/redevelopment are needed. - Title is not adequately relevant to the objectives.	
Highlights of Work	Precise and concise highlight of the project contributions in three bullet points.	The three bullets points are somewhat clearly described the main contributions of the project work.		The highlights do not clearly summarizes the contributions of the project work.	
Work Quality	- Effective applications of explorative visualization wherever appropriate in the visual analysis workflow. - Effective implementation of visualization techniques, e.g., choice of visual cues & parameters, interactions, design of dashboard.	- Good applications of explorative visualization in some appropriate scenarios in the visual analysis workflow. - Good implementation of visualization techniques, e.g., choice of visual cues & parameters, interactions, design of dashboard.		- Little applications of explorative in the visual analysis workflow. Mostly description visualizations are presented. - Fair implementation of visualization techniques, e.g., choice of visual cues & parameters, interactions, design of dashboard.	
Justifications & Discussions	Demonstrate deep understanding of the issues and limitations of the work done, with lucid explanation and justifications for the use of visualizations.	Demonstrate good understanding of the issues and limitations of the work done, with moderate explanation and justifications for the use of visualizations.		Demonstrate little or no understanding of the issues and limitations of the work done. Little or no explanation and justifications for the use of visualizations.	
Structure / Organization / Use of Visuals	- Report is well organized and clearly written. The underlying logic is clearly articulated and easy to follow. - Report elements as stated in the project requirements are completely included. - Words are chosen that precisely express the intended meaning and support reader comprehension. - Visuals or analyses enhance and clarify presentation of ideas.	- Report is organized and clearly written for the most part. In some areas the logic or flow of ideas is difficult to follow. - A few report elements as stated in the project requirements are missing. - Words are well chosen with some minor exceptions. - Visuals are consistent with the text.		- Report lacks an overall organization. - Most report elements as stated in the project requirements are missing. - Reader has to make considerable effort to understand the underlying logic and flow of ideas. - Visuals are absent or inconsistent with the text.	
Mechanics	- The language contains very few, if any, errors in grammar and vocabulary. If slips are present, the meaning is still clear. - Conventions of academic writing (e.g. citation, references, footnotes, etc.) are followed meticulously.	- The language is generally accurate but contains some systematic errors in complex grammar and vocabulary. - Conventions of academic writing (e.g. citation, references, footnotes, etc.) are followed apart from the occasional oversight.		- The language is sufficient for arguments to be understood with effort. However, the language contains frequent errors in simple and complex grammar and vocabulary that are distracting. - Conventions of academic writing (e.g. citation, references, footnotes, etc.) are followed but show many inconsistencies and/or errors.	

[Rubrics adapted from grade descriptors for essays used for common core courses (HKU) & sample rubric for final project report (Texas Education Agency)]
